# SUBJECT INDEX

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

- Abduction, deficiency of, (1162).
- Abiotrophy, retinal, (595).
- Abortion, panophthalmitis after, (281).
- Abscess, of choroid, (81).
- of cornea, (78).
- of orbit, (887).
- conjunctivitis, etc., simulating, 1054.
- retrobulbar, (986).
- Abstracts
  1. General methods of diagnosis, (178), (379), (570), (772), (973), (1157).
  2. Therapeutics and operations, (180), (381), (573), (773), (975), (1158).
  3. Physiologic optics, refraction, and color vision, (181), (382), (575), (775), (978), (1159).
  4. Ocular movements, (184), (276), (386), (477), (579), (779), (981), (1162).
  5. Conjunctiva, (76), (186), (277), (388), (477), (582), (782), (984), (1163).
  6. Cornea and sclera, (78), (189), (279), (391), (480), (584), (786), (872), (988), (1167).
  7. Uveal tract, sympathetic disease, and aqueous humor, (80), (192), (281), (393), (483), (585), (670), (790), (873), (992), (1170).

- Ophthalmoplegia, (*Continued*).  
 recurrent, (579).  
 total, from herpes zoster, (579).  
     from rachianesthesia, (185).  
     unilateral, 163, (599).  
 traumatic, 1030.
- Ophthalmoscope, introduction into England, (899).  
 simplified, 459.
- Ophthalmoscopy, of arterial hypertension, (797).  
 in focal and indirect light, (572).  
 and histology of optic nerve, 378.  
 infrared, of retina, (570).  
 localizing, (572).  
 red-free, 171, (772).
- Ophthalmozoosis endemica, (689).
- Opium intoxication, eye in, (97).
- Optic atrophy, see Optic nerve atrophy.
- Optic canal, fracture, (597).
- Optic chiasm, see Hypophysis.
- Optic disc, Szily's primitive epithelial, (596).
- Optic foramen, (884).
- Optic nerve and toxic amblyopias, (86), (200), (287), (401), (488), (596), (680), (998), (1071), (1176).
- Optic nerve atrophy, 763.  
 from birth injuries, (489).  
 from central echinococci, (496).  
 descending, exophthalmos with, (887).  
 familial, (1177).  
 and hemianopia, binasal (597).  
 after hemorrhage, blood transfusion, (287).  
 in juvenile diabetes, 856.  
 Leber's, (488).  
 and multiple sclerosis, 362.  
 of nasal origin, (201).  
 syphilitic, (201), (998), (1177).  
 tabetic, (597), (597).  
     infantile, (1071).  
 from thallium poisoning, 755.  
 from tumor, (402), (599).  
 treatment, amyl nitrite, (401).  
     malaria therapy, (998).  
     potassium permanganate, (597).  
     sympathectomy, (798).  
 and unilateral exophthalmos, 439.
- Optic nerve, in anencephalic monsters, (100).  
 coloboma of, 260.  
 degeneration, (696).  
     cervical sympathectomy for, (599).  
 disc, anomaly, (798).  
     choked, with arachnoiditis, (86), 164.  
         blind spot in diagnosis of, (682).  
         from central echinococci, (496).  
         and chickenpox, (885).  
         and early diagnosis, (884).  
         formation of, (998).  
         and papillitis, (1176).  
         pathogenesis, (287).  
         in serous meningitis, (1071).  
         syphilitic, (86).  
         from tumor, (402), (598).  
         in undulant fever, (681).  
     drusen, familial, (1071).  
     hyalin bodies on, (681).  
 disease, acetylcholine in, (200).  
     low blood pressure and, (1176).  
     effect of quinine on, (489).  
     excitation in retina and, (576).  
     histology and ophthalmoscopy of, 378.  
     injuries, see Injuries.  
     lesions, (1078).  
         in pregnancy, (598).  
     and myxedema, (201).  
     off effect in, (182).  
     ophthalmoscopy of, (378).  
     papilledema, see disc.  
     papillitis, and choked disc, (1176).  
     pressure on, from tumor, (201).  
     sheaths, hemorrhage into, (494).  
     tumors, see Tumors; and see Brain tumors.
- Optic neuritis, from acetylarsan, (884).  
 acute, in anterior poliomyelitis, (86).  
     in demyelinating diseases, (680).  
     varieties of, (680).  
 and early diagnosis, (884).  
 etiology of, (884).  
 exudative, from pellagra, (597).  
 retrobulbar, 965, 966.  
     acute, (680).  
         among Chinese, (402).  
         bilateral, after alcohol injection, (681).  
         causes of, 1147.  
         in myelitis, (401).  
         toxic, dental, (682).  
         of pregnancy, (288), (401).  
         thallium, (681).  
         trichlorethylen, (885).  
     and sinusitis, (402).  
     syndrome, (682).  
     trichinosis in, (97).
- Optic radiation, (87).
- Optical aberrations of the eye, (1160).
- Optical retail code, 376.
- Optics, physiologic, of retinoscopy, (777).
- Optometer, differential, (576).
- Optotherapy in retinitis pigmentosa, (1070).
- Orbicularis, see Muscles.
- Orbit, abscess, (887).  
     conjunctivitis and tenonitis simulating, 1054.  
     visual defects from, (682).  
 caustic liquid penetrating into, (600), (887).  
 cellulitis, (1000).  
 complications of, and sinusitis, (289).  
 cyst, congenital, 257.  
     dermoid, (90), 439, 963.  
     echinococcus in, (1073).  
     hemorrhagic, 464.  
     oil, with carcinomatosis, 532.  
 exenteration, prosthesis for, (289).  
 fascia of, evolution, (684).  
 granuloma of, infective, (1074).  
 hemorrhage, 559.  
 injuries, see Injuries.  
 lipogranulomatosis, (684).  
 nerves, lead poisoning of, 260.  
 osteomyelitis of, (290).  
 phlegmon of, (289).  
 pseudotumor of, (490), (886).  
 tumors, see Tumors.  
 and see Abstracts, section thirteen.
- Orthoptic exercise, (185). 226, (387), 463, 508, 961, (981), (982), (983), (1162).

**Explanation:** Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

- Ossification, endoöcular, (792).  
and see Metaplasia.
- Osteitis deformans, angioid streaks in, (1172).
- Osteochondrofibrosarcomatosis, orbital tumor in, (88).
- Osteochondroma, ophthalmoplegia from, (599).
- Osteoma of ethmoid, ocular signs, (96).
- Osteomalacia, cataract in, (398).
- Osteomyelitis of orbit, (290).
- Otitis and anisocoria, (82).
- Oxen, sodium content of eye of, 706.
- Oxycephaly, see Crouzon's disease.
